

Mid-Year Capital Markets and Economic Review

July 19, 2022

Asset Class Returns

Source: Morningstar Direct. As of June 30, 2022. *Hedge fund returns as of May 31, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Equity Market

- Market declines occur regularly and are a normal part of the investing process.

Frequency of Market Events Since 1950

Environment	-5% or more	-10% or more	-15% or more	-20% or more	Recession ¹
Average Frequency	About three times per year	About once per year	About once every three years	About once every six years	About every six and half years
Average Length	43 days	109 days	251 days	370 days	317 days

Sources: Capital Group, RIMES, Standard & Poor's. Average frequency assumes 50% recovery of lost value. Average length measures market high to market low. Does not include current downturn. As of May 31, 2022. ¹National Bureau of Economic Research As of May 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Fixed Income Market

- Fixed income markets have experienced the worst first six months of a year on record.

Bloomberg U.S. Aggregate - Calendar Year Growth of \$100

Source: Fiducient Advisors, Morningstar Direct. As of June 30, 2022. Calendar years 1976 to June 30, 2022. Daily data where available, otherwise monthly.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Inflation

- Headline CPI levels remain elevated and “front & center” for the Fed.

Sources: FactSet, BLS. As of June 30, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Central Bank Policy

- Markets are now anticipating a much higher federal funds rate by year-end compared to expectations at the end of the first quarter.

Market Implied Probability of Federal Funds Rate Level for December 2022

Source: CME FedWatch Tool, Fiducient Advisors. As of June 30, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Financial Conditions

- Evidence building that financial conditions are tightening.

Chicago Fed National Financial Conditions Index

Source: FactSet, Federal Reserve Bank of Chicago. As of July 8, 2022

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Inflation Expectations

- Investor expectations on future inflation reversed course in the second quarter, falling from recent peaks earlier in the year.

U.S. Breakeven Inflation Levels

Source: FactSet. As of June 30, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Economic Indicators

- Leading indicators have fallen from recent peak levels but remain positive on a year-over-year basis.

U.S. Leading Economic Indicator Index

Source: FactSet, Conference Board. As of May 31, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Economic Survey Data

- Softening survey data from both producers and consumers fuels the rising probability of an economic slowdown, yet PMI levels remain in expansion territory (above 50).

PMI and Consumer Confidence

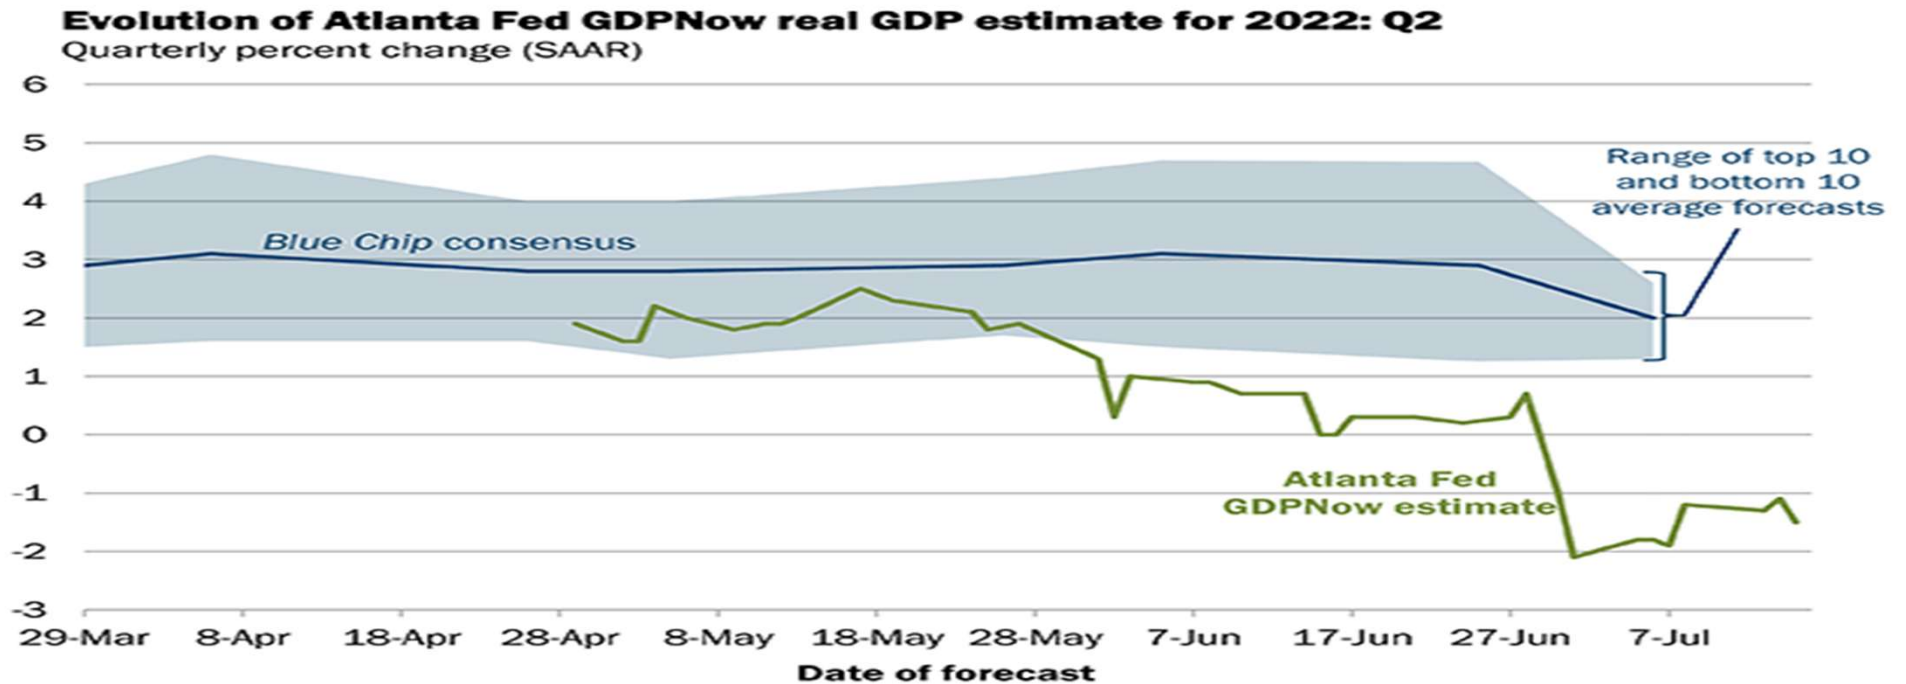

Source: FactSet, ISM, Conference Board. As of June 30, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

GDP Growth Expectations

- Expectations for economic growth have softened materially as tighter Fed policy takes hold.

Source: Federal Reserve Bank of Atlanta GDPNow. As of July 15, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

The Labor Market

- Demand for labor remains strong and may serve as a tailwind for further wage growth and bolster consumers' financial strength.

Number of Unemployed Per Job Opening

Source: FactSet, DOL, BLS. As of June 30, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

The Labor Market

- Monthly job growth is solid but has been trending down.

Source: FactSet, DOL. As of June 30, 2022. Some data is cut off due to y-axis scale.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Consumer Net Worth

- Consumer financial health remains at historically high levels.

Consumer Net Worth as a Percent of Disposable Income

Sources: FactSet, Federal Reserve. As of March 31, 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Market Returns vs. Business Cycle

- On average, markets peak about seven months ahead of an economic top and bottom out three to four months before the economy renews its growth trajectory.

Average S&P 500 Return vs Industrial Production

Sources: Capital Group, Federal Reserve Board, Haver Analytics, National Bureau of Economic Research, Standard & Poor's. Data reflects the average completed cycles from 1950 to 2019, indexed to 100 at each cycle peak.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Staying Invested is Key

- Equity markets are the most volatile leading into and during a recession. However, longer-term returns following the onset of a slowdown have been strong historically.

S&P 500 Returns around a Recession				
Year	6 months before - Onset	Onset - End	Onset + 3yr	Onset + 5yr
1973	-1.2%	-33.1%	5.5%	33.1%
1980	7.7%	8.8%	87.0%	117.4%
1981	-1.0%	-1.3%	70.6%	221.9%
1990	3.1%	6.1%	49.6%	110.2%
2001	-17.7%	-11.8%	-3.3%	18.5%
2007	-2.3%	-33.9%	4.6%	46.4%
2020	9.3%	-23.1%	N/A	N/A
Average	-0.3%	-12.6%	35.7%	91.3%

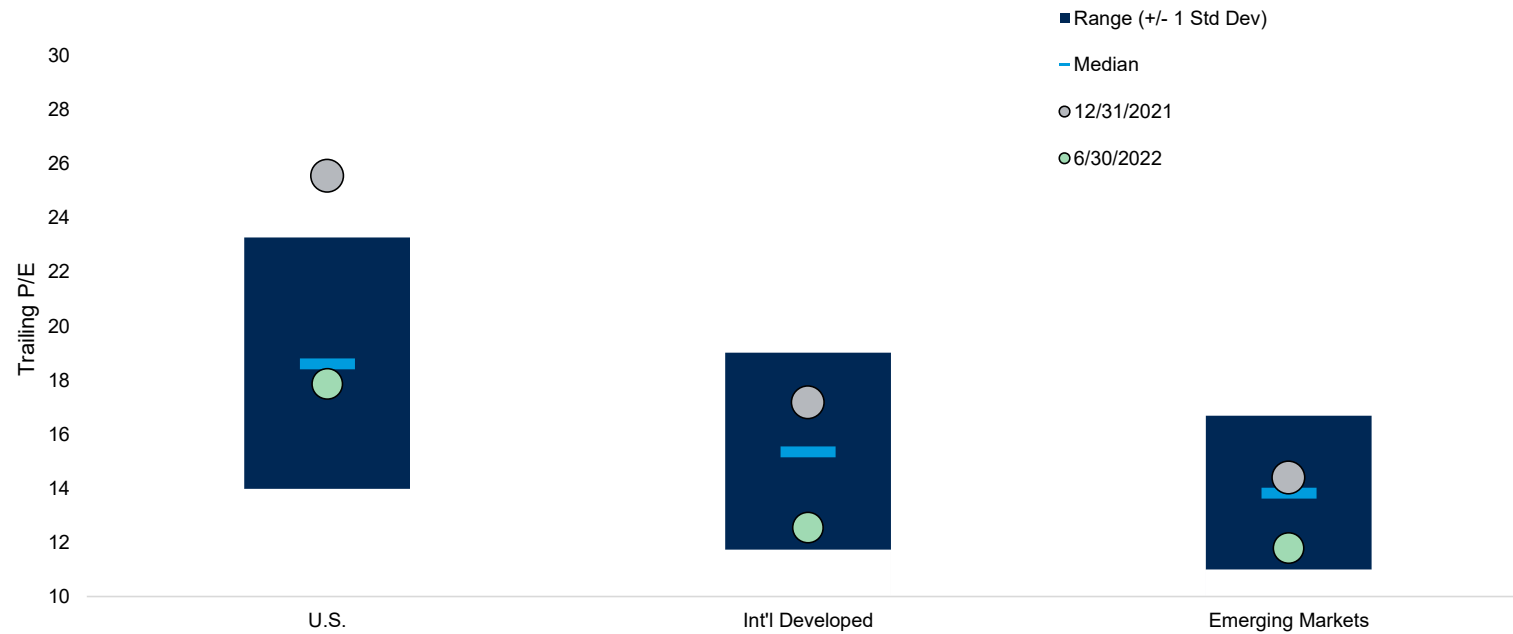

Source: Morningstar Direct, NBER, Fiducient Advisors. Returns shown are cumulative. As of June 2022.

See disclosures for list of indices representing each asset class. Past performance does not indicate future performance and there is a possibility of a loss.

Equity Valuations

- Equity market valuations have re-priced from the beginning of the year.

Equity Valuations - Last 15 Years
